The Honorable Hale Boggs
House of Representatives
Washington, D. C.

Dear Sir:

Is it true that Chief Justice Warren has employed, as a $100 a day advisor to the investigating committee of former Pres. Kennedy's assassination, a communist? ABC radio's Paul Harvey made the statement that this "advisor" has belonged to three different organizations which are communist front units.

As a member of this committee I'm sure you can answer this inquiry.

Yours truly,

Paul L. Byington
